
CONTENTS

Chapter One: <i>Purpose and Need</i>	1
Purpose	2
Need	2
Study Approach	2
District, Tribes, and Cooperating Agencies	5
Background	5
Environmental Compliance	11
Public Concerns	12
Chapter Two: <i>Alternatives</i>	17
No Action Alternative	18
Reestablishment of Natural Flows Below the Dam Alternative	21
Improved Efficiencies Alternative	22
Reservoir Recreation and Fisheries Alternative	24
Alternatives Considered But Eliminated from Detailed Study	26
Impacts Summary	27
Chapter Three: <i>Affected Environment</i>	29
Surface Water Quantity	30
Surface Water Quality	40
Groundwater	52
Sediment	53
Stream Corridor	56
Wetlands	65
Fisheries	66
Wildlife	73
Threatened or Endangered Species	75
Social and Economic Conditions	83
Indian Trust Assets	97
Environmental Justice	100
Cultural Resources	101
Paleontological Resources	106
Chapter Four: <i>Environmental Impacts</i>	111
Surface Water Quantity	112
Surface Water Quality	129
Groundwater	135
Sediment	137
Stream Corridor	138
Wetlands	141
Fisheries	142
Wildlife	143
Threatened or Endangered Species	145
Social and Economic Conditions	153
Indian Trust Assets	157
Environmental Justice	158
Cultural Resources	158
Paleontological Resources	159
Cumulative Impacts	160

Chapter Four: <i>Environmental Impacts (continued)</i>	
Unavoidable Adverse Effects	164
Short-term Uses/ Long-term Productivity	164
Irreversible and Irretrievable Commitments of Resources	165
Chapter Five: <i>Consultation and Coordination</i>	167
Public Involvement	167
Consultation With the Tribes and Other Federal Agencies	168
Distribution List	172
References Cited	177
Attachments	187
Attachment 1: Fish Stocked in the Reservoir	187
Attachment 2: Plant Species in the Angostura Area	189
Attachment 3: Wildlife Species in the Angostura Area	193
Attachment 4: List of Preparers	199
Index	201
Appendices (separate volume or on attached CD)	
Appendix A: Surface Water Quality Data, including AGRAOP information	
Appendix B: HYDROMET Monthly Reservoir Net Computed Inflow	
Appendix C: Reservoir Adjusted and Calibrated Inflow	
Appendix D: Reservoir Capacity Allocation Form and Drawing	
Appendix E: Reservoir 1949, 1966, and 1981 Elevation Area Capacity Table and Curve, 1997, 2042, and 2087 Elevation Area Capacity Table and Curve Based on DISSED	
Appendix F: Reservoir 1953-1997 End-of-Month Content, Elevation, Surface Area, and Evaporation based on HYDROMET Database and Generated by AGRAOP	
Appendix G: Reservoir 1953-1997 Monthly Canal and River Release Based on HYDROMET	
Appendix H: Annual Summary Data for Historical 1953-1997 and Future 1998-2042	
Appendix I: DISSED User Manual, Input and Output Data Examples, Reservoir Capacity Versus Sediment Distribution Graph Based on DISSED	
Appendix J: Cheyenne River Water Budget Analysis (In Cooperation with USGS)	
Appendix K: Reservoir End-of-Month Contents and Elevations for Historic and for Alternatives Based on AGRAOP	
Appendix L: Consumptive Irrigation Requirement Based on Modified Blaney-Criddle Method, Including Input and Output	
Appendix M: Canal Requirements Based on Modified Blaney-Criddle Method	
Appendix N: Canal Releases from Reservoir for Historic and Alternatives Based on AGRAOP	
Appendix O: District Average Monthly Irrigation Shortage for the Alternatives Based on AGRAOP	
Appendix P: River Releases from Reservoir for Historic and Alternatives Based on AGRAOP	
Appendix Q: Surface Water Quality Data, Including Sediment, Trace Elements, and Organic Contaminants in Fish	
Appendix R: Groundwater Quality Sample Data	
Appendix S: Bottom Sediment Quality	
Appendix T: Water Quality Impact Assessment	
Appendix U: Groundwater Data with Water Levels Less than 100 feet (Retrieved by USGS)	
Appendix V: Water Savings and Calculations	
Appendix W: National Wetland Inventory Maps	
Appendix X: Cultural and Paleontological Resources	
Appendix Y: Indian Trust Assets	
Appendix Z: Oglala Sioux Tribe EIS Report
